

Srihari B

UI/UX Designer

sriharibalaram@gmail.com · +91-9995359742 · Palakkad, Kerala, India · [Portfolio](#) · [LinkedIn](#)

PROFESSIONAL SUMMARY

Detail-oriented UI/UX Designer transitioning from 2+ years of enterprise software configuration and quality assurance experience at Wipro Technologies. Skilled in translating complex user requirements into intuitive digital experiences, conducting usability research, and producing design documentation aligned with development handoff best practices. Currently completing an Advanced Certification in UI/UX Design with Generative AI (IIITB × Simplilearn). Experienced in user research, wireframing, interaction design, and cross-functional stakeholder collaboration — with a portfolio spanning sustainable fashion, travel planning, and fashion e-commerce platforms.

WORK EXPERIENCE

Configuration & Testing Analyst

June 2023 – Present

Wipro Technologies – BPS Alight, TBA Platform | ExxonMobil U.S. Retirement Program

- Conducted structured **requirements gathering** sessions with client stakeholders to map user workflows, translating business needs into functional specifications — mirroring UX research and insight synthesis methodologies.
- Designed end-to-end benefit-processing **workflows and eligibility logic** within an enterprise platform, applying **information architecture** principles to complex, multi-step transactional user journeys.
- Owned full-cycle **UAT (User Acceptance Testing)** including unit, integration, and regression testing to validate system behaviour — directly analogous to **usability testing** and iterative design validation.
- Performed **root cause analysis** on production defects and data anomalies using DB2 SQL, reflecting a data-driven UX approach to identifying friction points and behavioural patterns.
- Produced comprehensive **design and configuration documentation** including analysis documents, test plans, and stakeholder handoff packages — translatable to UX deliverables such as design specs, research reports, and developer handoff documentation.
- Collaborated cross-functionally with operations, reporting, and calculation teams demonstrating strong **stakeholder communication** skills essential in agile product teams.
- Mentored junior associates and facilitated knowledge-transfer sessions, reflecting experience in **presenting insights** and advocating for user-centred thinking across teams.
- Recognised with multiple **excellence awards** at Wipro for quality of delivery, client satisfaction, and initiative ownership.

UI/UX PORTFOLIO PROJECTS

Sustainable Malligai – Fashion E-Commerce App

2026

Tools: Figma · Maze · ReportLab

- Led end-to-end UX design for a sustainable South Indian fashion app — covering **user research, wireframing, high-fidelity prototyping**, and developer handoff.
- Designed and executed a **Maze usability study** with 12 participants across 5 task scenarios; identified high misclick rate as the central usability issue through heatmap analysis.
- Produced a full **design handoff document** including screen specs, colour tokens, typography system, component inventory, animation notes, and a developer checklist.
- Delivered an 8-slide **research findings presentation** in brand palette communicating insights to stakeholders.

OotyTraveller – Hill Station Trip Planning App

2026

Tools: Figma · Google Forms · HTML Research Kit

- Conducted **mixed-methods UX research** for a travel planning app targeting Indian hill station destinations (Ooty, Munnar, Kodaikanal, Coorg).
- Drafted an 18-question survey and a 19-question semi-structured **interview guide**, targeting 20–30 survey responses and 5–8 user interviews.
- Developed an **interactive HTML research kit** to streamline participant communication and data collection.
- Applied findings to inform **user journey maps** and itinerary-builder feature priorities.

Malligai – UX Research Study

2026

Tools: Figma · UX Research Methods

- Conducted a focused **UX research study** on a fashion e-commerce platform, evaluating discoverability, navigation flow, and checkout experience.
- Applied **competitive analysis, heuristic evaluation**, and user feedback synthesis to identify design opportunities.

CORE COMPETENCIES & SKILLS

UX Design & Research	User Research · Usability Testing · Heuristic Evaluation · Wireframing · Prototyping · Information Architecture · Interaction Design · User Journey Mapping · Persona Development
Design Tools	Figma · Maze · Canva · Adobe Express
Developer Collaboration	Design Handoff · Component Specs · Annotation · Design Systems
Data & Analytics	SQL (DB2) · Data Analysis · Root Cause Analysis · Reporting
Agile & Project Tools	Jira · SharePoint · Agile Methodology · Cross-functional Collaboration · Stakeholder Communication
Platform Knowledge	Alight TBA Platform · HRO Workbench · SmartComm

CERTIFICATIONS

Advanced Certification in UI/UX Design with Generative AI	Feb 2026 – Jul 2026
IIIT Bangalore × Simplilearn 6-month programme	

EDUCATION

Bachelor of Technology – Computer Science & Engineering	Jul 2019 – Jun 2023
Nehru College of Engineering and Research Centre (NCERC), Kerala CGPA: 7.48	
IEEE Student Branch leader — served as Secretary, Chairperson (IEEE PES), and Kerala Section Electronics & Communication Coordinator, gaining hands-on experience in stakeholder coordination, team facilitation, and public communication.
